PMCX offers a unique, affordable location for a wide range of shows and events. With 36,597 square feet of new, wide open space, there are hundreds of possibilities for its use – from trade shows to media and tech events, B2B initiatives, sales meetings, special events, and much more.

The space features **natural light with views to the city**, kitchen prep area, show office, conference room with kitchenette, free WiFi in common areas, freight elevator with loading dock, and 24/7 access. It has everything you need to create a unique experience for your customers.

Best of all, **PMCX allows you to use your own decorator, caterer and on-site staff.** Food service is also available on-site from **skillet café.**

As an existing destination whose reputation centers on presenting innovative trends from around the world, designers, manufacturers and buyers are familiar with the Pacific Market Center and its location. The building is located 4 blocks from I-5 in Seattle's Design District – just ten minutes from downtown and close to the airport. With free parking and 24-hour access, **PMCX will instantly become the “must have” space for shows and events.**
